PROGRAM IS COMPLETED FOR BAND TESTIMONIAL

Committee in Charge Appeals to Citizens for Contributions to Expense Fund.

Contributions Are Asked. Every citizen of Washington probably has listened to one or more of the free concerts provided by the government bands in the public parks. In appreciation of this entertainment, which has been furnished every summer for ten years, a municipal fete in honor of the bandsmen will be staged at Brightwood reservoir Saturday afternoon. A committee of citizens, appointed by the District Commissioners, is making arrangements for the testimopial, and the public is asked to contribute to a fund which will be divided among the members of the three government musical organizations. As every one knows, the bandsmen are paid small salaries, and it is hoped by the committee that a sufficient amount of money can be raised to make possible the presentation of a substantial testimonial to each member. Donations may be sent to C. J. Gockeler, treasurer, at the Board of Trade, or to The Evening Star. tee of citizens, appointed by the

Twelve Events Scheduled.

Twelve events make up the program that is to be staged, and it is doubtful if a more interesting entertainment will ever be given in Washington's out-of-doors. The committee offers silver loving cups for four of the events All blades carefully sterilized before delivery.

CREDITORS ASK REVIEW.

Carry St. Louis Blast Furnace Company Case to Supreme Court.

Creditors of the St. Louis Blast Furnace Company, headed by Edmond W. Mudge, have petitioned to the Su-preme Court to review the decision of which held that the company's action business, in giving these creditors its debts was invalid under the Missouri

constitution. It was urged that in periods of naof corporations could neither forthwith neet their obligations nor sell bonds at a fair price, and to deny them the alternative of pledging their bonds to secure an extension of credit was to force them into bankruptcy. They urged that the case was important not only to Missouri, but to many other states having similar constitutional provisions or corporation laws.

SERBIA BETWEEN TEUTON AND BULGAR ATTACKS

WAR OFFICIALLY REPORTED

FRENCH STATEMENT.

PARIS, October 13: At the conclusion of the bombardmen reported yesterday the enemy last evening delivered an infantry attack against our positions to the north-east of Souchez. These attacks, like the preceding ones, were everywhere completely repulsed.

completely repulsed.

Last night saw artillery actions of great intensity, in which both sides took part, between the Somme and the Oise, in the region of Andeehy and to the east of Rheims, in the direction of Moronvillers. Batteries of the enemy have delivered a violent cannonade in the region to the south of Tahure and to the east of Butte de Menil. Our artillery held this fire back effectively, and in the meantime we were making further progress from trench to trench at a point, to the east of the earthwork known as "the trapeze."

There has been fairly intense fighting with trench machines in the sector of Flirey, and more violent fighting, accompanied by artillery exchanges in which both sides took part, in the suburbs of Reillos.

in which both sides took part, in the suburbs of Reillos.

In the Vosges the enemy, after a complete check to his attack along the front from the Linge to the Schratzmannele, resumed his effort yesterday evening. A second outburst of artillery fire along the entire front, in preparation for an infantly advance, was followed by a fresh attack, which, generally speaking, resulted in failure. The Germans were able to gain a footing in our first-line trenches at only one point, and this was to the south of the Linge hills. The trench they took was between sixty and eighty yaris long. Our counter attacks made it possible for us to reoccupy a portion of this trench immediately.

A squadron of ninetern French aeroplanes has thrown down 140 shells on the railroad station at Bazeancourt, whence movements of the enemy have been reported.

Another air squadron, composed of eighteen machines, has bombarded the railroad junction at Achiet le Grand, near Bapaume. Other machines have bombarded the railroad tracks at a point near Warmeriville. Last tight's French official statement

Last hight's French official statement reads:
The enemy this afternoon very violently bombarded the trenches which we took from him by our action of yesterday to the northeast of Souchez. The number of prisoners we took in the course of that action was 165, 3 of whom were officers. The Germans have suffered heavy losses.
Cannonading, characterized by intensity on both sides, has been going on to the south of the Somme, in the region of Tilloloy and Piennes, and on the Aisne front, on the plateau of Nouvron. The enemy having again dropped shells on Soissons, we replied effectively against his trenches and batteries.
In Champagne our progress continues in the direction of the gully of La Goutte, which we dominate to the west, on a somewhat extended front. The enemy resumed the bombardment of our positions in the direction of Maissons de Champagne and to the

An attempt at an offensive in Lorraine against one of our advanced posts near Pont de Manhoue was completely checked by our shelling and barrier of fire.

lage of Jorjok, south of Lake Demmen. Under cover of a fog our troops at dawn yesterday, without firing a shot, suddenly attacked the enemy near the southern end of Lake Demmen and captured three lines of his trenches and took prisoners and machine guns.

Near Gresenthal, north of Lake Drisitiata, we gained a success, also taking prisoners. Our aviators assisting the field troops threw fifty bombs on the enemy's lines on the front of Lakes Medum and Drisitiata.

South of Lake Obel our troops crossed the River Prorva and captured the villages of Rudzi, Golovitch and Gavrantsi. They also occupied Isthous, on the northern end of Lake Boginskoie. Near the Oginski canal the enemy attempted to advance at some points, but was everywhere repulsed.

Southwest of Pinsk the Germans were attacked and dislodged at the point of the bayonet from the village of Komorau. They fled in disorder and suffered heavy losses from our machine gun fire.

South of the Pripet region, on the left bank of the Styr, our cavalry made a series of successful raids. Enemy attacks near the villages of Rafalowka and Sytzniny, on the Styr below Ciartorisk, and his attempts to cross were unsuccessful.

In the Galicia region, at the village of Haivorenka, west of Trembowla, our detachments, following up the success gained the previous day, forced the enemy's last line of defense and occupied two rows of trenches. They also stormed a farm on a height east of Haivorenka. This position constituted a strong fort, with a complete system of trenches covered in and connected by a corridor with loopholes protected by steel plates and two rows of barbed wire around the works. In the redoubt 252 men surrendered. We captured a gun and three machine guns. In an attempt to recapture the lost work the enemy launched a counter attack with large forces, but was repulsed. By a fresh effort in the same region we forced the enemy's line on Mount Makova,

Save and the Danube and on the lower Drina we are attacking on the whole front. The Austro-Hungarian troops advancing from Belgrade have stormed the mountain of Light, east of the town, and the Laudon intrenchments, capturing three guns and one searchlight. All the heights around Belgrade which command the river passages within field gun range are in the possession of the allies. The Germans captured Semendria and drove the enemy back to Possarowitz.
